

Updated: 2020-August

TGL SKU:	UP3-R 4+2 28W
CPU PL2/4 Config:	Performance
Deep Sleep:	Deep Sleep Enabled
Memory:	32GB DDR4 3200 MT/s
PD Tier:	Volume
Additional Options:	<input checked="" type="checkbox"/> Connected Standby
	<input checked="" type="checkbox"/> Wake on Voice Capability

\*CCG recommends NVDC charger and 25xP battery for better VR performance, however traditional 35xP battery and non-NVDC charger may implemented in some designs

## SoC Power Levels

Package PL1(TDP):	28	<-----Hover over PL value for a definition
PL2:	64	
PL3:	66	
PL4:	121	

## VR Naming Convention

Suffix	Engerized States
S	On in S0, S0x
U	On in S0 - S3
A	On in S0 - S5
DSW	On in S0 - D54/D55
